EDUCATION

BS in SE COMSATS UNIVERSITY
ISLAMABAD LAHORE CAMPUS
Expected Graduation : 2027

F S C

2020 - 2022

Matric

2018 - 2020

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL, JavaScript

Frameworks & Technologies: Flutter, MERN Stack

Tools & Platforms: Git, GitHub, Figma

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Systems

CERTIFICATION

FLUTTER DEVELOPMENT CERTIFICATION

September 2025 -November 2025

@Elevare Tech

ABOUT ME

Software Engineering student at COMSATS Lahore with hands-on experience in Java, SQL, and the MERN stack.

Strong foundation in Data Structures and Algorithms, with a passion for building scalable and efficient web and mobile applications.

PROJECTS

- **Employee Management System (Java)**
 - Developed an Employee Management System using Java based on OOP principles, implementing CRUD operations and file handling to efficiently manage employee records.
- **Chat Application (Java & DSA)**
 - Designed and developed a Chat Application by applying Data Structures and Algorithms to optimize message handling and improve communication efficiency between users.
- **Chat App (Flutter & Firebase)**
 - Built a cross-platform mobile chat application using Flutter and Firebase, featuring real-time messaging and a responsive, user-friendly interface.
- **Supermarket Management System (SQL & C#)**
 - Designed and implemented a relational database system for Super market management, billing, and sales tracking using SQL and C#.
- **Ride Booking App UI/UX (Figma)**
 - Created a complete ride booking application prototype in Figma, including wireframes and high-fidelity mockups focused on intuitive navigation and enhanced user experience.
- **Mian Autos (MERN Stack Web Application)**
 - Developed a full-stack vehicle listing platform using MongoDB, Express.js, React, and Node.js, building a scalable and responsive web application.
